

The engineers and product specialists at Sealoc spent over a year designing the finest outdoor TV cover the world has ever seen. We looked at every conceivable aspect and problem to be solved, and then created the last outdoor TV cover you will ever need. Designed to protect your outdoor TV in the harshest of conditions, this custom-fit TV cover includes features such as heavy-duty zippers, UV-stabilized and waterproof fabric, a polyester velvet internal lining, a remote control pocket, tented vents to allow heat to escape, a multitude of back-panel adjustments to work with nearly every mounting system there is, and is also made extra long to cover even the largest sound bars that may be attached to your outdoor TV.

**Back panel designed to work with mounts of all types.**

**Hook & Loop fasteners keep the rolled up cover out of view while watching TV**

**Extra-large, covered remote control pocket safely stores remotes of any size**

**Internal polyester velvet protects TV screen and TV body from scratches**

**5mm UV-stabilized, waterproof polyester shell with 7 of 8 color fastness**

**Tented built-in vents to allow heat to escape, but shed water and debris**

### CUSTOM FIT FOR 43" - 82" TVs

NOTE: Please contact your Sealoc sales representative to check for fitment of other TVs.
