

36" Built In Fireplace 220V

ProElectric - ClassicFlame/Bell'O

The ClassicFlame PRO 36" traditional built-in electric fireplace insert, 240 volt, is designed as an alternative to a wood burning fireplace and provides a beautiful and affordable substitute for a gas insert and features a traditional log set. The insert comes with a multifunction remote control and integrated junction box for hard-wire applications. Fixed tempered glass panel helps to give the look of a built in fireplace. Total surround flange allows for flush mounting to finished wall surfaces. The insert can provide supplemental zone heating up to 800 square feet and can be used with or without heat for all season enjoyment. The onscreen function indicator lights up when operated to display temperature, brightness settings, heater function and the timer function.
