39" BUILT IN FIREPLACE W/ REMO

Builder Box - ClassicFlame/Bell'O

This ClassicFlame PRO 39" traditional built-in electric fireplace insert, dual voltage is designed as an alternative to a wood burning fireplace and provides a beautiful and affordable substitute for a gas insert featuring an operational glass door with a mesh screen and a traditional log set. The insert comes with a multifunction remote control and integrated junction box for hard-wire applications. Fixed tempered glass panel helps to give the look of a built in fireplace. Total surround flange allows for flush mounting to finished wall surfaces. Dual voltage technology allows this unit to be used for 120 or 240 volt applications. The electronics have a memory and can be wired to a switch. The onscreen function indicator lights up when operated to display temperature, brightness settings, heater function and the timer function. The insert can be used with or without heat for all season enjoyment.

Features

- 39" Traditional Built-in Electric Fireplace Insert with Glass Door and Mesh Screen, Dual Voltage Option
- Dual voltage technology allows this insert to be used for 120v or 240v applications providing supplemental zone heating up to 400 or 800 square feet respectively
- Flame effect can be operated with or without heat, providing the ambiance of a gentle rolling fire all year long
- Spectrafire™ flame effect technology offers realist gas-burning fire effect or a classic, wood-burning fire effect
- Faux brick interior, 2 downlight settings and a fixed tempered glass panel helps to complete the look of a built-in fireplace
- A multi-functional remote and wall mounted thermostat allows you to decide the temperature of your room
- Long lasting, energy-saving LED technology
- Safe for kids and pets - fireplace stays cool to the touch
- Eco-friendly, energy efficient fireplace does not emit any emissions or other hazardous byproducts
