

STAINLESS STEEL BURNER COVER

Stainless Steel Burner cover

Burner Cover Installation: Please note that all safety and warnings for that product must be adhered to for you will be covering a GAS product with many safety warnings. The cover is for "Aesthetic" purposes only.

IMPORTANT: Never cover a gas product without making sure that the product is completely shut off. Shut off means no flame, no gas flow to the burner or self-ignition system if applicable. Make sure that the safety valve (Ball or key Valve) allowing the gas to flow to the burner is in the off position.

WARNING: Do not place the cover over a burner that has a flame in the Burner system. Never cover a burner that has any gas flowing to the Burner

IMPORTANT: Assumes no responsibility for this product if not purchased with an Burner System with all Warnings read and adhered to.

IMPORTANT: For outside use only with products.
