### OVERVIEW

**Canopy** is the roof of your Cabana X, and its unique design will determine the amount of shade or sunlight you will receive.

**Backdrop** can be the wall on each side of your Cabana's Platform, comprising of panels that can be stacked up to four times vertically providing the desired coverage.

**Appearance** is the architectural decor that enhances the corners of your Cabana X's Platform.

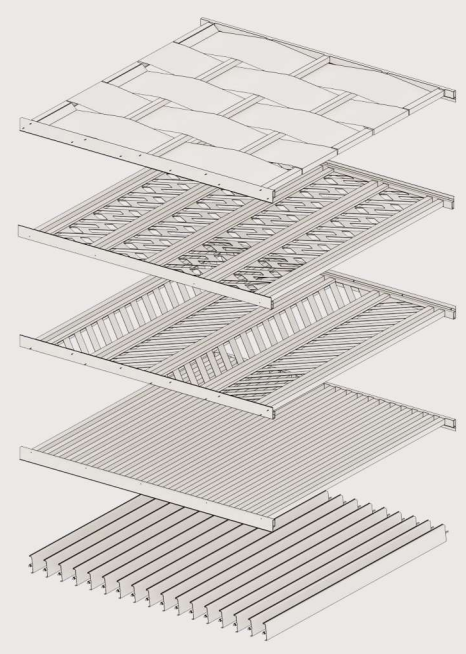

**MOD** determines the layout and composition of two or more Platforms stacked together, allowing expandability and design versatility for each unique backyard space.

This document is merely an overview of the essential components and dimensions for the assembly of each of these areas.

CABANA X / 2.0

## c / Appearance.

ISOMETRIC /

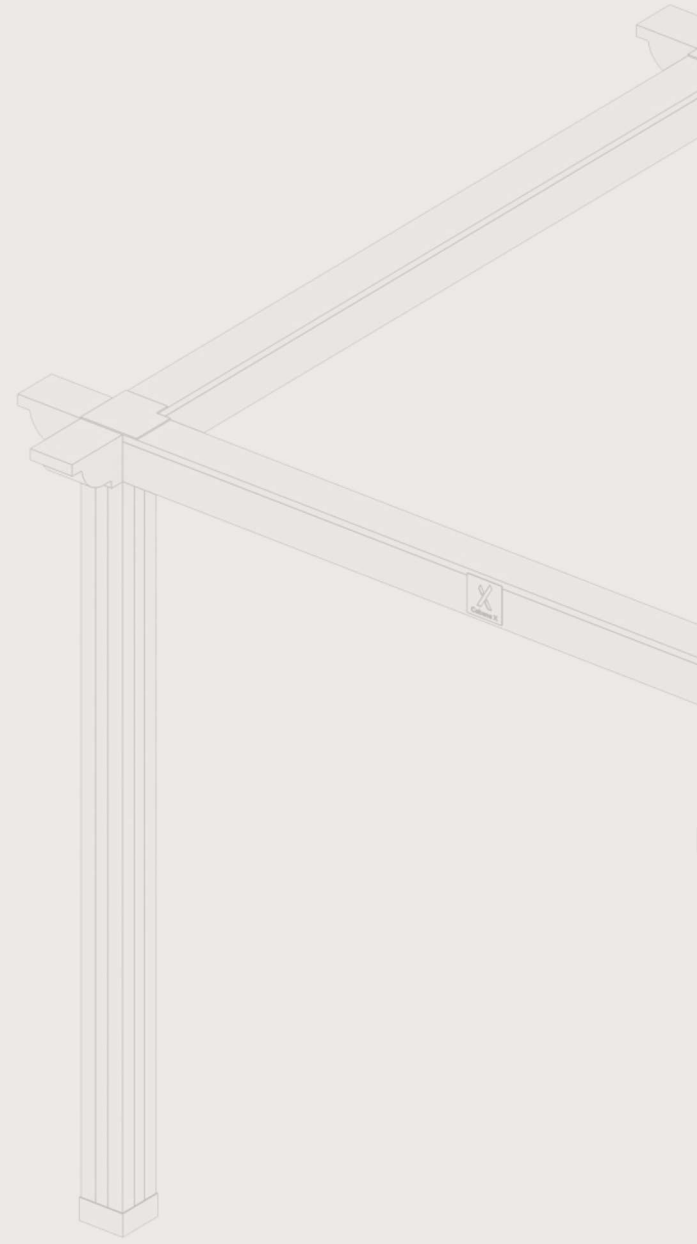

### / Overview

Corbels are an architectural element that you can add to your Cabanna X, allowing it to seamlessly blend into its preexisting architectural surroundings.

### COMPONENTS

Cabana X offers enhancement options for the appearance. Listed below is the respective spec.

01 / Corbels			
Weight	N/A		
Dimension	6" x 6" x 9"	Material	Bent Aluminum

CABANA X / MOD

# D / MOD.

/SINGULAR

ISOMETRIC /

## DESCRIPTION

MOD allows you to have multiple platform combinations depending on your needs. Moreover, these combinations consist of different **post caps** to ensure a successful assembly.

## POST CAPS

Depending on the choice of MOD, you will select its respective post-cap design.

### 01 / Singular

No MOD

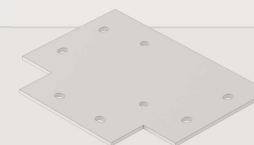

Thickness	3/16" inch	Material	Powder Coated Aluminum	X6
-----------	------------	----------	------------------------	----

### 02 / T-Shaped

For linear MOD

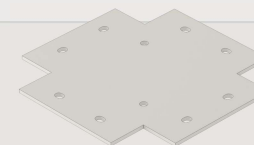

Thickness	3/16" inch	Material	Powder Coated Aluminum	X8
-----------	------------	----------	------------------------	----

### 03 / Cross

For linear and diagonal MOD

Thickness	3/16" inch	Material	Powder Coated Aluminum	X10
-----------	------------	----------	------------------------	-----

02/

## Linear.

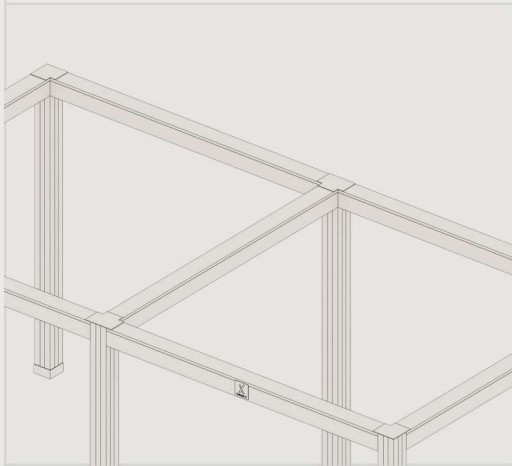

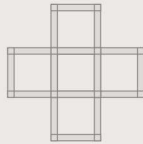

Double

Triple

Mix & Match (T and Cross)

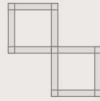

03/

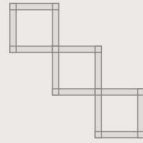

## Diagonal.

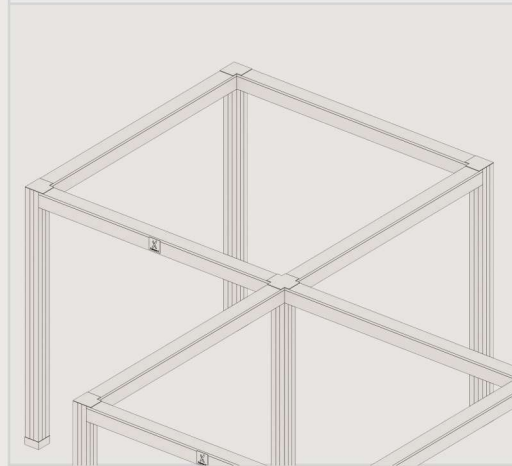

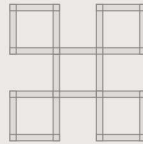

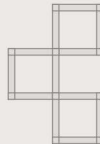

Double

Triple

Mix & Match

## COMBINATIONS

There are two standard MOD configurations—linear and diagonal—each expandable in three primary ways: double, triple, and mix & match.
