

Large Undermount SolGranite Kitchen Sink

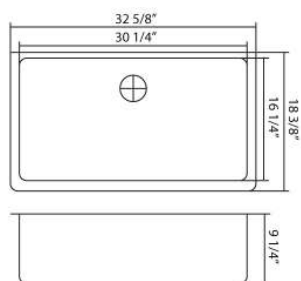

Our SolGranite sinks come in five colors to match any countertop: black, mocha, white and beige. They are made with 80% Quartzite and 20% Acrylic, and they contain silver ions in the sink which kills 99% of bacteria on contact. They are extremely scratch resistant, can withstand temperatures up to 550 Degrees, and are unaffected by household acids and cleaners. They are also completely stain resistant. All undermount sinks come with a cardboard cutout template and mounting hardware.
