

the **Vintage**TM *series*

Outdoor heating can indeed be beautiful

Infrared Outdoor Patio Heater

The *Vintage* Series by Patio Comfort combines the classic and elegant design elements of old world hand crafted aluminum components integrated beautifully into the latest in safety-oriented, functional, high performance, and long lasting comfort heating products.

The *Vintage* heater is protected with an Antique Bronze Polyurethane Powder Coating that is electro-statically applied. The textured finish and color are designed to compliment and enhance your outdoor entertaining and dining areas.

All of our top performing Patio Comfort Infrared Heaters use highly efficient “infrared” radiant heat to directly warm people and objects, while not wasting valuable energy trying to heat the air.

The high quality components in the *Vintage* are designed to bring you many years of warmth, comfort, and outdoor dining and entertaining enjoyment.

Product Features and Unique Benefits

- Completely Self Contained and Portable
- Features a unique “French Door” style “EZ ACCESS” hinged access double door system for the propane cylinder enclosure, hose and regulator.
- Patio Comfort’s, *Vintage* is the only patio heater that has a heavy duty door latching mechanism to prevent accidental access to the propane cylinder. The latch and access doors may also be secured with a small padlock (not provided with heater).
- 100% safety shut-off control
- All polyurethane powder coated cast aluminum post, base, doors, and tank enclosure.
- Unique heavy duty cast iron ballast weight to prevent accidental tipping or movement.
- Underwriter’s Laboratories (UL) approved in the US and Canada.
