“... Kamado Joe is the best ceramic grill on the market. We chose it because of the upgrades it comes with compared to competitors.”

— Terry Johnson, Florida customer

A “Kamado” is a traditional ceramic cooking vessel fueled by charcoal. Archaeologists have discovered early versions of such spherical cookers in China that date back over 3,000 years.

Kamado Joe keeps the heat in the grill, the moisture in the meat

The key advantage of a Kamado Joe grill is its ability to insulate, which means less total heat is required to cook. The shape also circulates heat for more uniform cooking. Compare this to gas grills that let heat escape and cook largely from below. Gas grills require more total heat to achieve the same temperature profile as a Kamado Joe. This excessive heat robs moisture from your meat. Kamado Joe keeps the heat in the grill and the moisture in the meat.

Lump charcoal, made from real wood imparts a wood-fire flavor

Kamado Joe is fueled by lump charcoal, which is made from real wood. Lump charcoal lights more readily than briquettes and imparts a robust wood-fire flavor to your food.

Kamado Joe grills, sears and smokes

First and foremost, Kamado Joe is a grill. Its ceramic construction and unique shape, along with the benefits of lump charcoal, mean moister grilled meats and a wonderful wood-fire flavor. Thanks to its insulative properties and use of hotter-burning lump charcoal, you can also sear steaks at 750° like you get at a high-end steak house. Plus, Kamado Joe works wonderfully as a smoker. It can maintain lower temps for up to 12 hours without adding more fuel.

Innovative features; comes well-accessorized

What really separates Kamado Joe are its innovative features, like the new Divide&Conquer Flexible Cooking System, and the fact that it comes with everything you need to grill, sear and smoke. You'll also appreciate Kamado Joe's attention to detail: The new ash drawer (patented) makes cleanup easier than ever, the fit and finish is second to none, and the stability of the grill is unmatched!

IT COMES WITH ALL THAT?!

DIVIDE & CONQUER

Flexible Cooking System

Cook on multiple levels on multiple surfaces at once!

- Twice the cooking space
- Multi-level cooking (sear a steak and grill veggies at the same time)
- Create different heat zones
- Specialty surfaces also available

Heat deflectors – allow for indirect heat and versatile cooking

Built-in thermometer – oversized and easy to read

Folding bamboo shelves – classy with clever folding design

Slide-out ash drawer (patented) – makes ash clean-up easier than ever

Grill gripper – designed to grab grill grates so you don't have to

Sturdy cart with locking caster wheels – lets you easily maneuver your grill

There is far more to a Kamado Joe grill than meets the eye!

BEST BUILT Kamado Joe is the best-built ceramic grill you can buy. Fit and finish are second to none!

MOST VERSATILE Multiple cooking methods (grill, smoke, sear, bake, etc.); multiple cooking levels; multiple cooking surfaces!

BEST WARRANTY Kamado Joe comes with a Lifetime Warranty on ceramic parts and free shipping on all warranty parts.

DIVIDE & CONQUER

Flexible Cooking System

Other grills come with a simple grate. Kamado Joe comes with the revolutionary Divide & Conquer Flexible Cooking System (see pages 6-7)!

Kamado Joe comes with heat deflectors, which allow you to cook with indirect heat as well as smoke. On most other brands, these are accessories!

KAMADO JOE
IT COMES WITH ALL THAT?!

No other ceramic grill comes with everything you need to grill, sear and smoke!

Extra-large, built-in thermometer for easy reading

Finished folding bamboo side shelves

4 utensil pins on each side shelf for holding tools

Powder-coated, galvanized iron hinge

High-fire, heat-resistant ceramic

Finished bamboo handle

Oversized locking caster wheels for maneuverability and stability

Divide & Conquer Flexible Cooking System for unmatched versatility

Slide-out ash drawer contains and controls messy ash

Dual-disc top vent lets you control cooking temps two ways

Stainless-steel sliding draft door

Heavy-duty grill stand

DIVIDE & CONQUER

Flexible Cooking System

Multi-level flexibility, multi-surface versatility

The clever and revolutionary Divide & Conquer Flexible Cooking System replaces the ordinary grill grate. The key is the “Half Rack Design,” the halving of all components to allow for multi-level flexibility and multi-surface versatility. The two-piece cooking grid and multi-level rack give you three big advantages over the standard grill grate!

1. Get twice the cooking space (or more)

The Flexible Cooking System allows you to cook on two different levels at the same time, effectively doubling your cooking space! With the optional Grill Expander (sold separately) you can even cook on three levels. This gives you 660 square inches of total cooking surface – more than any other standard (18”) grill!

Total available cooking surface

Grill Expander	152 sq. in.
Grate (top)	254 sq. in.
Grate (bottom)	254 sq. in.

Total cooking surface 660 sq. in.

2. Create different heat zones

The halved Kamado Joe Heat Deflector (included) allows you to create different heat zones within the grill at the same time. For example, on one side, you install a half Heat Deflector on the lower level and a cooking grate on the upper level. Here you can cook veggies with indirect heat. At the same time, on the other side, you install a half grate on the lower level to cook your meat.

3. Add custom cooking surfaces

(see next page)

The Divide & Conquer Flexible Cooking System also allows you to add custom halved cooking surfaces for even more cooking versatility!

THE PARTS

Flexible Cooking System Rack

Two level rack (included) accepts all Flexible Cooking System parts/accessories

Halved Cooking Grate

Two half grates (included) replace traditional full grate

Halved Heat Deflector

Two half Heat Deflectors (included) allow for indirect heat cooking; use one or both

Accessory Rack

(Not pictured)

Accessory Rack (sold separately) holds drip pan; can be used as a stand for Pizza Stones and other accessories

THE BASIC CONFIGURATIONS

Create heat zones

Standard grilling

Side-by-side cooking grates

Standard smoking

Side-by-side grates over side-by-side Heat Deflectors

Indirect/direct grilling

Side-by-side grates; Heat Deflector one side only

Multi-level/ indirect/direct

One raised grate over Heat Deflector (for even more indirect heat), one lower position grate

Two-level grilling

Side-by-side grates over side-by-side grates or full grate (additional sold separately)

Two-level grilling

Grill Expander (sold separately) over side-by-side grates

Three-level grilling

Grill Expander over side-by-side grates over side-by-side grates or full grate

Drip pan grilling

(Not pictured)

Side-by-side grates over Accessory Rack with drip pan

Pizza baking

Pizza Stone on Heat Deflectors on grates or Accessory Rack

CUSTOM COOKING SURFACE ACCESSORIES

Use in place of standard cooking grates for specialized cooking

A.

B.

E.

A. CAST IRON HALF GRATE

There is no better way to cook a steakhouse-caliber steak than on a cast iron grate! You'll get authentic grate marks and the experience only cast iron can provide.

B. CAST IRON HALF GRIDDLE (REVERSIBLE)

For those who love to cook on cast iron, this reversible half griddle gives you two cast iron cooking surfaces in one!

C. FISH HALF GRATE (not shown)

This stainless-steel custom cooking surface was designed specifically for cooking fish fillets. It spreads heat evenly and makes it easier to handle more fragile meats. The surface itself is twice as thick as other fish grilling surfaces for durability and performance.

D. VEGGIE HALF GRATE (not shown)

Designed specifically for cooking veggies, this stainless-steel cooking surface makes handling veggies easier and protects them from excessive heat. Double-thick design for durability.

E. STANDARD HALF GRATE

Stainless steel half grate (one), the same as the two that come with Kamado Joe. Additional grates allow for multi-level cooking.

CLASSIC 18"

This is the perfect grill for everyday family cooking and weekend entertaining. 18 inches of grill surface allows you to cook plenty of food for all but the biggest gatherings. Put a Kamado Joe Classic 18" on your patio and it will soon become your favorite way to cook!

Combo Joe 36" Ultra features two premium, heavy-duty stainless steel cast burners

ACCESSORIES

Kamado Joe Lump Charcoal

Kamado Joe 100% Natural Lump Charcoal is made from real trees so it burns clean and gives you a robust wood-fire flavor. Some other brands are made from scrap furniture or processed wood. This means less wood-fire flavor.

Burns hotter for moister meats!

Because Kamado Joe 100% Natural Lump Charcoal is made from hardwood, it burns hotter. This allows you to achieve steak-searing temperatures. Used in conjunction with a ceramic grill which insulates well, you'll use less total heat to cook your food which means moister meats.

Burns longer for better slow cooking!

Kamado Joe 100% Natural Lump Charcoal burns longer thanks to the hardwood used to make it. Also, you'll get the right mix of fast-starting small pieces and long-burning large pieces that will allow you to cook low and slow for extended periods of time. Other lump charcoals offer too many cheaper small pieces and not enough larger pieces.

Costs less per use.

Kamado Joe 100% Natural Lump Charcoal costs less per use because the hardwood charcoal burns hotter and the larger pieces burn longer. If you close the vents in your grill when done, you'll also be able to re-use partially burned charcoal pieces.

Ceramic Halved Heat Deflectors

Kamado Joe Heat Deflectors allow you to cook with indirect heat and create different heat zones within your grill for cooking unlike foods at the same time. Made from easy-to-care-for ceramic, these Heat Deflectors circulate heat around your food for more even cooking. The halved design works with the Divide & Conquer Flexible Cooking System.

Shelf/Handle Replacement Kit

Make your Kamado Joe grill look new with this shelf/handle replacement kit. Made from a heavy-duty HDPE (high density polyethylene), these shelves and handle are incredibly durable and easy to clean. Kit includes an ash tool.

Divide & Conquer Flexible Cooking System

The Divide & Conquer Flexible Cooking System (see pages 6 & 7) comes with your new Kamado Joe grill (Classic and Big Joe). Various components are also available as accessories. And, there are additional components that come only as accessories.

Flexible Cooking System Rack – the base for the entire system.

Standard Half Grate – buy additional racks to accommodate multi-level cooking.

Halved Heat Deflectors – allow for indirect heat, smoking.

Accessories:

Accessory Rack – The Accessory Rack fits into the Flexible Cooking System Rack and is designed to hold a drip pan or serve as a stand for Pizza Stones (in conjunction with Heat Deflectors) or other cooking devices.

Cast Iron Half Grate – for authentic cast iron cooking; the best way to sear a steakhouse-caliber steak

Cast Iron Half Griddle (reversible) – two cast iron cooking surfaces in one

Fish Half Grid – stainless steel cooking surface designed specifically for cooking fish

Vegetable Half Grid – stainless steel cooking surface for cooking vegetables

DIVIDE & CONQUER

Kamado Joe Fire Starters

Kamado Joe Fire Starters are designed for igniting lump charcoal. They are clean, odorless, non-toxic, chemical-free, environmentally safe and they won't flare up. They burn up to 1300° for 8 to 12 minutes and are easy to light, even if wet. 24 Fire Starters per box.

Kamado Joe Air-Dried Smoking Wood

Kamado Joe Air-Dried Smoking Wood is naturally air dried which preserves the natural sugars in the wood imparting a sweeter, tastier flavor. Other smoking wood is kiln dried, which, while considerably faster, forces natural sugars from the wood, compromising flavor.

Choose from Apple, Cherry, Hickory, Maple, Oak and Pecan.

Rib Rack

The Kamado Joe Rib Rack optimizes grilling space and allows you to cook larger quantities of ribs to perfection by placing them vertically in the rack. It makes basting easier and allows for more even cooking too. The Rib Rack can also be used for cooking whole chicken legs, pork chops, or any food that can be placed in the slots of the rack.

Kamado Joe Grill Expander

Add up to 60% more cooking surface to your grill with the Kamado Joe Grill Expander. It sits directly on the grill grate with slotted feet for added stability. It also allows you to elevate vegetables and delicate meats up away from the fire.

Chicken Stand

The Kamado Joe Chicken Stand lets you make tender whole chicken on your grill. Simply fill the stand with the liquid of your choice (beer, marinade, juice, etc.), set a whole chicken onto the stand and place on your Kamado Joe. The steam from the liquid makes the meat moist.

Joe Blow

The Joe Blow Electric Blow Lighter will ignite your lump charcoal in just three minutes. It uses extremely hot air and is the fastest way to fire up your Kamado Joe. Simply plug it in, turn it on and hold the muzzle close to the charcoal.

Kamado Joe Grill Cover

Protect your Kamado Joe grill from the sun and elements all year long with the Kamado Joe Grill Cover. It features a custom fit and is constructed of a durable, 100% solution-dyed polyester that is coated with a waterproof PVC-free coating and will not fade. Sizes to fit Classic and Big Joe.

Kamado Joe Electric Charcoal Starter

The Kamado Joe Electric Charcoal Starter features a three-loop design which ensures more charcoal contact for faster lighting and an angled stainless steel element that sits better on the bottom of the grill. 600 watts of power.

Kamado Joe Pizza Stone

Bake authentic, wood-fired, pizzeria-quality pizzas on your Kamado Joe with the Kamado Joe Pizza Stone. This high-impact ceramic stone distributes heat and absorbs excess moisture for a perfectly cooked pizza with a crisp crust.

Kamado Joe Deep Dish Pizza Stone

The Kamado Joe Deep Dish Pizza Stone lets you make authentic, wood-fired, pizzeria-quality deep dish pizzas on your Kamado Joe. The deep dish stone can also be used for casseroles, paella, bread, etc. The high-impact ceramic stone distributes heat and absorbs excess moisture.

KAMADO JOE SEASONINGS, RUBS AND SAUCES

Kamado Joe offers an entire line of premium seasonings, rubs and sauces made specifically for Kamado Joe by Runnin' Wild. These products are truly different. All are made from the very best ingredients and all contain no MSG and are gluten-free.

Seasonings – made with the very best spices and Kosher salt and organic evaporated cane juice (not processed sugar) because it doesn't turn black. Also, cane juice is the sweetest portion of the sugarcane, and, because it's creamier, it serves as a base to smooth out the flavor of the spices.

Rubs – like the seasonings, the Rubs contain organic evaporated cane juice as well as corn starch which keeps the sugars from liquefying and burning off.

Sauces – simple, premium ingredients, no MSG and gluten-free.

"The quality and amount of standard accessories that come with the Kamado Joe make it the smartest buy available."

– Lane Veillon, Baton Rouge, Louisiana

"Kamado Joe is by far the best ceramic cooker out there. Each time I cook with it I am impressed even more!"

– Shawn Beaulieu, Upper Tantallon, Nova Scotia, Canada

"Best buy I've ever made!"

– Scott Stinchcomb, Winston, Georgia

"I'm continually amazed at just how versatile my Kamado Joe has been. I love being able to cook a pork shoulder or full brisket low and slow for 20 hours, then sear rib-eyes at nuclear temperatures all on one load of charcoal without doing anything more than opening up the vents. Kamado Joe's quality construction and lifetime warranty mean that my only long term concern is which of my kids will inherit it."

– Cameron Murphy, San Marcos, California

"Owning a Kamado Joe has proven to me that the company wants my ownership experience to be as positive as I do. I've been able to consolidate the many grills and smokers that I used to need for various tasks with one Kamado Joe that is versatile enough to handle them all!"

– Frederick Jennings, Billerica, Massachusetts

"After having cooked on just about every type of grill/smoker imaginable, I FINALLY decided to try one of those crazy "ceramic cookers"... OH MY! I'll never go back to using anything else!"

– Robb Walters, Roseville, California

"There is just no comparison to the taste and enjoyment of the food from my Kamado Joe. I can't possibly see how a significantly over-priced green one could possibly be any better quality than this piece of equipment. Fine stuff."

– Troy Staton, Simpsonville, South Carolina

"Just as advertised all the food cooked on the Kamado Joe is moister and has an enjoyable wood fire flavor. We smoke fish, bake breads & pizza, grill and sear steaks. Kamado Joe is enjoyed by every member of our family!"

– Jeanne Prittinen, Virginia, Minnesota

"The Kamado Joe looks better and is built better than the rest. I cook everything on it. I'll never go back."

– Robert Stoufer, Chesapeake, Virginia
